MESSAGE

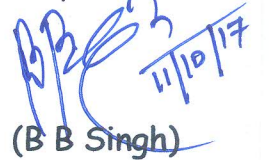

It is a matter of great pleasure and delight to note that All India induction Furnace Association (AIIFA) has taken initiative to host its 31st National Level Conference on "Strengthening Green Steel Production: Building Pillars for New India"

It is gratifying to note that the agenda of the Conference covers a very important and relevant issue of recent times. I wish that AIIFA will go a long way in addressing the current challenges faced by the Steel Industry.

In the AIIFA's 30th National Level Conference held on 22.10.2016 at New Delhi; "MSTC METAL MANDI" portal was launched under the aegis of Ministry of Steel. "M3" is a digital market place for hassle free business transactions in the metal sector and is emerging as a game changer by promoting "Digital India" and "Make in India" initiatives of the Government of India. The members of AIIFA are definitely going to reap the benefits of "M3" portal riding the digital wave.

I congratulate all the members of the association for their sincere effort and wish all the success of the conference.

Sincerely Yours,

(B B Singh)
